INFLUENZA BAN PARTLY LIFTED AGAIN CLAMPED ON.

Encouraged by the nature of reports that had been coming in to them the members of the local Board of Health held a meeting Wednesday at which they decided to lift the ban which had been in effect since issuing the wide closing order by the State Board of Health on October 9. It was given out that the churches would be permitted to hold services on next Sunday, and that on Monday after Thanksgiving the ban would be lifted from moving picture houses and other places, and the schools permitted to resume their sessions again. Thus encouraged the janitors of the schools, moving picture houses and the churches were making preparations for resumption, and were busy cleaning up their respective places, when another order stopped them.

A number of new cases developing in the city and county since the meeting of Wednesday, and the discouraging reports that had come to the Board of Health from other towns regarding the spread of the disease impelled stronger action on the part of the local Board. A meeting was held yesterday afternoon, at which reports of new cases were submitted and a general review of the local situation was discussed. In view of the facts adduced by these reports and in order to take no chances the order of Wednesday was rescinded, and the lid was ordered clamped down again tighter than ever. Barbers who had lain aside their masks were ordered to resume them again, the pool rooms which had been relieved of the ban, were again placed under the same provisions as before. The Board arrived at the conclusion that if one kind of public gathering should be permitted all other kinds should not be prohibited, and in the interest of the public health, decided to bring the pressure on everything that would tend to make the situation dangerous.

Up to yesterday several new cases had been reported to the local Board of Health, and the general impression was that the situation here had been greatly relieved. The return of wet weather may be the means of some new cases developing, but the Board of Health is very optimistic regarding the situation. In a way Paris has been very fortunate. All the old cases are showing very satisfactory progress, and it is believed they will be entirely recovered in a short time.

In surrounding towns the influenza has developed a reaction or a recurrence, with the result that the ban has been placed on again. In the mountain section the disease is abating in some parts, while increasing in others.

We have heard considerable talk in Paris to the effect that all cases of the influenza have not been reported to the Board of Health. This may or may not be true. We hope it is not true, for in any case it is inexcusable in the interest of public health, and if we are to stamp out the dreadful disease and do it effectively, there must be a strict compliance with the mandates of the Board of Health. Every case, even if merely suspected, should be reported to the Board of Health, and the house placarded. THE NEWS believes that this is absolutely necessary to the public health.

There is another health regulation that is being violated with impunity in some places. The Health Board has issued anti-spitting warnings and had placards to that effect posted in public places, but THE NEWS asserts that it is being violated constantly in some of the public places in Paris. Unthinking or careless persons spit on the floors of restaurants and other public places without a thought of the disease-producing possibilities of their action. In the name of health and for the protection of the public these violators ought to be warned and the violators themselves punished if they persist. One of the greatest dangers in the present influenza situation, as indeed it has been all along, is the careless habit of spitting on floors and on the pavements, when it is well known such practice is dangerous to health.

It was stated yesterday that there was but little if any reason to fear a serious recurrence of the influenza in Paris. It is probable that throughout the winter there will be flurries of the disease, and the rate will go up and down. In the past few weeks there have been reported a number of colds affecting the nasal membranes, but this is declared not to be influenza. However, all patients are warned to take all possible precautions both for themselves and their neighbors. Paris may naturally expect sporadic increase in such weather as that of the past few days, also during the Christmas shopping season, with its consequent crowding. However, there is no cause for alarm except in the case of a steady, constant increase extending over a number of days. And that ratio has not been maintained here.

According to Cincinnati daily papers 166 new cases and 33 deaths were reported to the City Health Officer Peters, of that city, claimed it was due to the peace celebration of Monday a week ago.

COLORED CITIZENS DIE.

Bettie Lyle, colored, died in the Massie Memorial Hospital annex, following an operation for appendicitis. She had been employed in the home of Mr. and Mrs. James Arkle, on Second street. Allie Hill, colored, aged about forty, died in Ruckerville of kidney trouble. He is survived by his widow.

BOURBON COUNTY SURE TO REACH TOP IN CAMPAIGN.

Bourbon county is sure to go over the top in the United War Workers Campaign, which has been engrossing the time and attention of the people for the past week or ten days. The workers were busy yesterday in an effort to have subscribers increase their subscriptions already made, and it is believed they were successful, although the exact figures were not available last night as we went to press.

Up to yesterday the fund lacked about \$2,700 of the amount necessary to telegraph headquarters the good news, "We have gone over the top." The workers were confident that the amount would be raised, if not in yesterday's campaign, at least today.

When the boys in khaki and blue come back you want to be in the cheering throngs that will welcome them back to the good old town of Paris and to their homes in Bourbon county. You are no doubt looking ahead to that happy home-coming time, whether you have a son, a brother, a husband among them or not. But, taking stock of yourself, today, do you feel that you have done your full share in bringing them home clean in mind and sound in body?

The quota for the county in this great work, which is proceeding not as smoothly as it should, is \$52,000, prorated among the seven organizations, as has been published several times. There yet remains a surplus to be raised to complete this quota. The county of Bourbon has already invested several millions of dollars in interest-paying Government securities, and is therefore amply and easily able to contribute the full quota for this Welfare Work among the soldiers, and if it fails to do so, then its soldier sons must and will be the beneficiaries of the patriotic gifts of other counties.

The people of this county do not, as a matter of course, want to mortify the boys who have made this great sacrifice, the effects of which we are now enjoying in quiet, peaceful homes. If the individual citizen will not do his mere duty the county will be known and branded as a slacker in the work, and those of her people who have given as they should, will not be compelled to suffer the shame caused by the slacker.

Have you made your response to this call? Does the response you have made represent the sum-total of your interest in the morals and the welfare of the boys from Bourbon county who have done so much for you? Think this over, then give, give again, and increase your subscription.

To-day the American soldiers, some of them our own boys, are marching on their way to Germany. Won't you know they would like to be home with us? But they must complete the work they have started, and we must complete the work we have started. Arrangements have been made whereby you can sign a pledge, a promise to give, which you may take up any time between now and March, 1919.

The following appeal to the patriotic spirit of Bourbon county people has been issued by the chairmen of the precinct committees and other prominent workers, in the hope of putting Bourbon county "over the top" in this campaign:

To the Citizens of Bourbon: The county lacks \$2,700 of coming up to its quota of \$52,000 for the United War Work drive.

In every kind of war work in Kentucky Bourbon county stands absolutely first. Shall she fail in this?

A thorough canvass has been made and yet we have not reached the goal. We started on too low a basis.

A move is on foot to get subscribers to increase subscriptions conditioned on the full amount being raised. Some have agreed to a \$200 raise on these conditions, others \$50, and many for less amounts, and yet a shortage exists. Won't you join in and help to save the day?

Nicholas and Harrison counties in our district are already over the top. Bourbon must not fail.

In the name of our boys who have given their lives for the cause, in the name of our boys over there, every one of whom give unequalled endorsement of the Y. M. C. A., the K. C., and all the others benefiting by this drive; in the name of the fathers and mothers of these boys who hope to have them returned to them clean and well, and for the sake of the pride we have in seeing the reputation of Bourbon county sustained, we appeal to you to help.

Bourbon must not fail. (Signed)

IN THE INTEREST OF FUTURE "WAR GARDENS."

Prof. Clarence B. Matthews, Assistant Director for Kentucky and Tennessee for the U. S. School War Gardens, University of Kentucky, at Lexington, was in Paris yesterday, in conference with Supt. Kirkpatrick and other school authorities.

Prof. Matthews is working under the auspices of the Bureau of Education, at Washington, interesting the school children in the matter of war gardens to be promoted next spring. He will visit Paris again in the late winter and in the early spring.

Two main purposes prompted the planting of the United States School Garden: (a) Increase food production and (b) training school children in thrift, industry, service, patriotism and responsibility.

The necessity for man power was being felt. This was especially true in agricultural pursuits. Not alone were the drafted young men going from the farm, but great numbers of farm employees were being attracted to the cities by higher wages offered in other industries. If the millions of city boys and girls could be induced to give their leisure time to cultivating the thousands of acres of untilled land in front and back yards and vacant lots of our cities, towns and villages, it would result in a substantial increase in food production and an improvement in the quality of our coming citizenship.

The Bureau of Education undertook to accomplish this through the organization of the United States School Garden Army. It is a problem both of production and education and belongs to the schools.

PUBLIC LAND SALE NOV. 27—337½ ACRES AT AUCTION.

Harris & Speakes are going to sell for Hon. A. S. Thompson his home place on Clintonville pike on November 27, at 11 o'clock. This is one of the best farms in the State. Read the big advertisement on another page. (19-2t)

BOURBON LODGE TO HEAR REPORTS MONDAY.

For over sixty years Bourbon Lodge I. O. O. F. has held regular meetings, the only interruption coming during the Civil War, when conditions naturally precluded such gatherings. Last Monday night the lodge held a meeting, the first of the kind that has been held since October 9, when the official order from the State Board of Health prohibited all public gatherings, because of the influenza epidemic. On next Monday night a meeting of the committee will be held when reports from delegates to the Grand Lodge will be made.

FEDERAL LAND BANK IN CAMPAIGN OF EDUCATION.

Myron A. Waterman, Special Assistant in Charge of Organization for the Federal Farm Loan Bureau of Washington, will address a meeting on Saturday, November 30, at 2 p. m., at the court house in Paris, and fully explain the workings of the system and answer questions pertaining to it.

The gist of the Land Bank system is that actual farmers can borrow 50% of the value of their farms and 20% of insurable improvements, to the extent of from \$100 to \$10,000 at 5½% interest and on from five to forty years time, payments to be made on an amortization plan and any part or all of the loan can be paid after five years at any payment period.

The rate of interest farmers pay the bank will always be at the minimum and under no circumstances can it exceed 6% and the system will give land values some stability. The great prosperity which will come to farmers through this institution will benefit all other lines of business in like proportion, for they are all dependent upon the farmer. In view of this fact, all broad visioned forward looking bankers, merchants and professional men should wholeheartedly assist in extending the usefulness of the Federal Land Bank.

The meeting should be very generally attended by all farmers and especially tenant farmers of character and industry who have a small capital, for this system provides a way whereby tenants may become land owners.

ARE YOU CARRYING ENOUGH SHARES?

Are you carrying as many shares in the Building & Loan Association as you can afford? Doubtless there are many share holders who are carrying five or ten shares who could easily carry two or three times that number. No other form of investment pays any better rate of interest than shares in the Bourbon Building & Loan Association. Our new series opens Saturday, December 7.

BOURBON CIRCUIT COURT.

Judge Robert L. Stout reconvened the November term of Bourbon Circuit Court to try the cases of two negroes, Sam Sherman and Dillard Haley, indicted a few days ago by a special grand jury. Sherman was charged with obtaining money under false pretenses and was given two years in the Frankfort Reformatory. Dillard was before the Court on a malicious shooting charge. He was sent to jail for sixty days at hard labor.

IN THE SERVICE OF THEIR COUNTRY.

Sergeant S. N. Hudnall and Privates William Hudnall and James Wells have returned to their duties at Camp Buell, after visiting relatives near Spears Mill. They are engaged in auto-mechanical work at the camp.

The Stars and Stripes, the organ of the American Expeditionary Forces in France, has arranged for November 24 as the day upon which all the American troops shall write home to father. Special delivery arrangements are under way in order that "Father's Day" shall be as successful as "Mother's Day," May 12 last. It is hoped that the fathers will write to their sons on the same day.

Notice came from Washington to Camp Taylor this week that when the men are discharged from service they will be discharged in groups, according to their home towns, so that all may return home in a body. This will afford opportunity for home-coming by the different cities and towns. Orders were received to discharge 132 civilians who had entered the Artillery Officers' Training School since November 11.

Director-General McAdoo has announced his intention of establishing a reduced passenger rate of two cents a mile, instead of the usual three cents, for soldiers returning to their homes after discharged from the army. By law soldiers are allowed 3½ cents a mile for transportation and meals, and the special fare, Mr. McAdoo believes, will enable them to buy meals and pay for sleeping car reservations out of the allowance.

Major Henry Rhodes, Chief of the Selective Service Department has notified all local draft boards to discontinue further classification of all claims coming under their jurisdiction. He called upon them to complete the records of all men already classified and to return all other records to the district board without action.

The attention of the local draft boards has been called to the care and preservation of all records in their possession. Heavy fines and imprisonment will be imposed by the Federal government on persons mutilating, destroying or removing these.

At a monster mass meeting held in the Ryman Auditorium, in Nashville, Tenn., on the night of November 10, in the interest of the United War Work campaign, one of the principal speakers was Rev. Carey E. Morgan, formerly pastor of the Paris Christian church, who had lately returned from France. Rev. Morgan's address, printed in full in the Nashville Banner of Nov. 11, paid a masterful and eloquent tribute to the American soldiers and their Allies, and told of the great work the Army Y. M. C. A. had done in the war-torn countries. He told many interesting incidents of the great war, and was received with an outburst of applause that lasted for several minutes.

The Dallas, Texas, Evening Journal of recent date, prints an unusually lengthy letter from William Renick Smith, a member of the American Expeditionary Force, in France. The letter, dated Oct. 6, was written to his father, Judge Curtis P. Smith, of Dallas. Young Smith is a grandson of Mrs. Wm. Renick, and a nephew of Mr. B. M. Renick and Mrs. Duncan Bell, of Paris. He is with the 133rd Field Artillery, which went overseas in August, and had not, at the time the letter was written, been on the firing line. Smith's letter was, in the main, descriptive of camp life in France, and his impressions of the French people and La-Belle France.

After a separation of over thirteen years father and son were reunited when G. A. Lawson, of near Paris, met his sailor son, Seaman Virgil Lawson, in this city. While a resident of Lincoln county Mr. Lawson placed his three children in the Baptist Orphans Home in Louisville. He later moved to Bourbon county to reside. Virgil Lawson, now seventeen, joined the U. S. Navy and was assigned to service on the battleship Kansas. Another son is in France in the infantry service of the army. Mr. Lawson recently heard of his boys whereabouts and wrote them to come to Paris to meet him. Father and son met here in a happy reunion. Young Lawson will remain with his father for several days, after which he will return to his ship, the Kansas.

Mr. Clifton King, of Paris, received a few days ago a letter from his brother, Private Herbert King, who is in France. The letter covered eight closely written pages, and was highly interesting. Private King went to Camp Taylor as a member of one of the Bourbon county draft contingents, and made an enviable record as a good soldier. He was transferred to the field artillery branch of the service, and was in that part of the service at the West Point artillery range. His letter stated that he was in the same service in France. He said that on one occasion while delivering ammunition to a machine gun squad the bullets from German machine guns splattered around his squad like rain drops, but no one was hurt. King gave a graphic account of the doing of the American soldiers,

PEACE CELEBRATION DECLARED OFF.

After having three different dates set for the big event, the Victory Celebration planned for Paris, was finally declared off. Arrangements had practically been completed for the celebration to be held on Thursday, November 28, Thanksgiving Day.

At a meeting of the ministers of the city a request was sent to the committee having the big celebration in charge, asking them to change the date so as to enable everyone to comply with President Wilson's request that the day be one of solemn prayer. In accordance with this request the date was changed to Wednesday, November 27, and again changed to Friday, November 29.

Mr. Rudolph Davis, who took great interest in the celebration, in view of the prevailing sentiment against holding the parade and other events in connection with it, and the dissatisfaction manifested in other directions, declared the celebration off. The city was flooded Wednesday with bills announcing the decision of the committees, and the event will be a thing of the future, if then.

GIVE THANKS

Now that the war is over we should all give thanks on Thanksgiving Day. Be properly dressed for Thanksgiving dinner.

GOVERNING BOARD OF RED CROSS SELECTED

At a meeting of the members of the Bourbon County Red Cross, held in the County Court room Wednesday afternoon the following were selected as members of the Governing Board:

Mrs. A. B. Hancock, Mrs. Denis Dundon, Miss Mary Spears, Mrs. Albert Hinton, Mrs. H. Clay Howard, Mrs. Owen L. Davis, Mrs. Eddie Spears Hinton, Mrs. A. J. Winters, Mrs. John T. Collins, Mrs. George Current, Miss Nell Crutcher, Mrs. John Kiser, Mr. J. W. Jones and Mr. W. W. Mitchell.

From this number the officers and members of the Executive Committee will be elected at a meeting to be held in the court house Monday afternoon at 2:30 o'clock. The following officials are ex-officio members of the Governing Board: Mayor E. B. January, Dr. J. A. Gilkey, President of the Bourbon County Medical Society; Mr. A. B. Hancock, Chairman Bourbon County Council of Defense; Mrs. Fanniebell Sutherland, President of the Federation of Women's Clubs, and Mrs. James McClure, President of the Bourbon County Health and Welfare League.

RED CROSS URGED TO SPEED UP WORK.

Although the work of the Surgical Dressings department of the Red Cross organization has been declared finished, yet other work remains to be done, and the local chapter has received instructions to make up a quota of refugee work as quickly as possible.

In compliance with the request all the women who so loyally worked in the Surgical Dressings rooms are asked to meet at the rooms on Friday of this week, and on Tuesday and Friday next week.

As the call to this work is urgent, all are asked to co-operate by coming and learning just as willingly as in the Surgical Dressings. The work is new, interesting and important and easy to learn.

This will not interfere with the sewing in the Red Cross sewing rooms, which will be occupied to-day by the Mission Circle of the Presbyterian church.

but regretted his inability to tell more, on account of the censorship, which has since been relieved. Before his induction in the army service King was employed as clerk at the restaurant of Ahearn & Burton, at Tenth and Pleasant. He said the Paris boys were very much in evidence in France and that they were a jolly, contented lot.

The first death occurring in the Barrow Base Hospital Unit, of which several Bourbon county boys are members, was that of Lieut. Clinton V. Reed. He was from Three Forks, Montana, and was one of the twenty-three physicians in the Unit.

Eighteen boys who have gone from the University of Kentucky to various training camps have been ordered by the War Department to return to the University immediately. Among the number are Hiram T. Adair and Thornton Connell, of Paris, who were in the Officers' Training Corps at Camp Hancock, near Augusta, Ga.

Mr. Turney Collins, formerly of near Colville, writes to Paris friends that he is greatly pleased with his place at Great Lakes Naval Training Station, and that he would just as soon remain there as to come back. He is the company bookkeeper for 144 men in the service. Mr. Collins says he is kept too busy all the time to even hunt up a cause for complaint.

Lifting The Lid.

The War Industries Board and the Council of National Defense began lifting the lid immediately upon the signing of the armistice and it is the expectation to lead up gradually to a return to something like pre-war conditions. Officials feel that a too sudden change might result in a severe shortage of materials in certain directions, and would disturb labor and transportation facilities; and therefore these dangers will be avoided by official restrictions. However, it is certain that there is sufficient steel and other supplies on hand, which will never be turned into munitions and war commodities, to serve the situation confronting the country, if a program for a gradual development of the less essential manufactures is adhered to by the Government. The Fuel Administration did one of the few popular things in connection with its existence by making an early announcement of an order removing many of its restrictions. Limitations and restriction upon forty-two different activities were modified in an initial order by the War Industries Board. Thus renewed activity follows in the manufacturing of agricultural implements, including tractors, and in road machinery, stoves and heaters of all kinds, household utensils, building materials, refrigerators, sewing machines, baby carriages, builders' hardware, bicycles, sporting goods, passenger automobiles, cash registers, etc. The Priorities Division of the War Industries Board announces that it will assist industries in procuring materials, fuel, transportation, and labor, but that precedence will be given to stimulate and increase the production of cargoeships and to supply the requirements of the army and navy as well as to provide for the enormous volume of food and materials that will need be sent abroad. Precedence will also be given to activities that will stimulate the production of foods and feeds, of coal, of natural gas, of oil and its products, of textile and clothing, and of minerals; and to provide for deferred maintenance, additional betterments, and extensions of railroads, telegraph and telephone lines, and other public utilities, and to permit and stimulate the intensive development of inland waterways.

But One Official Celebration.

Washington went just as wild as the rest of the country when it came to celebrating the signing of the armistice. Perhaps the difference in Washington was momentous in view of the fact that the city has tens of thousands of war workers from every State in the Union, which made the celebration a national rather than a local affair. When the President and Mrs. Wilson projected their presence into the center of the rip-roaring spontaneous affair the extension was unprecedented in the history of the National Capital.

An extraordinary circumstance in history deserves to be noted in connection with the celebration of the victory of democracy over autocracy. Victory Day occurred upon the birthday of the King of Italy, and a brilliant celebration took place at the Italian Embassy, where Count V. Macchi-

di Cellere entertained four hundred guests, including the French Ambassador and Madame Jusserand, and members of the diplomatic corps. Secretary of State and Mrs. Lansing and the Cabinet circle, members of the several war missions now in Washington, French, British and Italian, with personal friends of the hosts from official and resident society, joined in this event. Democracy has discovered that it has bulwarks of strength in the Kingdoms of Italy, England and Belgium—and official Washington, and the diplomatic corps, while celebrating the signing of the armistice and the birthday of the King of Italy at one and the same time completely reversed the old-time American policy of government which maintained that democracy could not exist under a monarchy. American soldiers who have been stationed in England, Italy and Belgium have returned with enthusiasm and friendship quite unknown in the old days when we spoke so lightly about "foreigners."

Turn Ideas Into Cash.

When business settles down to bedrock there will be any quantity of \$5,000 and \$10,000 jobs floating around. Now is the accepted time for young men to get their thinking machinery well oiled and in active operation. These jobs call for thinkers. And you would be surprised to learn how few thinkers there are who are available for jobs. Room at the top? Gee whiz! there is nothing but room—if you believe what the great captains of industry say, and you must believe, for they all say the same thing.

Once on a time the head of the department in a big factory found the other department heads giving him the cold shoulder. It worried him because he seemed to do nothing the livelong day but sit in a window and smoke a cornucop pipe. Finally one of them voiced his grouch to the boss.

"When you get so you are of as much value to the firm as the lad who smokes the cornucop," said the boss, "you can select your own window and smoke fifty-cent Havanas instead of cornucops. While that lad is smoking he is thinking of schemes that we turn into dollars."

Can you do any of that sort of thinking, with or without the aid of Missouri's most widely advertised product? If you can you are a candidate for one of those \$5,000 or \$10,000 jobs.

It pays to convolute for the boss.

Bringing The Boys Back.

The task of turning the nation from war to peace is taxing every avenue of governmental authority. Secretary Baker says that as a matter of justice, men who have been longest in the service should be released first, but the industrial situation and the special need for men of a certain calling probably will modify the principle of making length of service a guide to order of muster out. While there is an anxiety to return the greater part of the four million men now under arms to civil life there is still the more important problem of preserving the balance of power of the labor supply and at the same time without delaying demobilization operations. Among the first of the military changes were orders issued by the War Department discontinuing the acceptance of applications for the central officers training camps and stopping the organization of any new classes.

Have Faith.

A great financier has just said that "the war with its cost in men and dollars will bring reactions and readjustments with possible economic demoralization and depression, and possible panics." To this might be added, that the world finished its job of hunting down and bringing to time bandit nations. No warrior or prophet can foresee or foretell what problems are ahead of us. However we are living in a day in which principles of right and justice are triumphant. In such times all very naturally have faith!

How Domestic Consumers Can Save Gas

DON'T burn lamps in daytime.

DON'T keep hot water tank flame higher than necessary.

DON'T turn gas on for cooking until you have vessel ready for use; turn off immediately when cooking is completed.

DON'T use gas at high pressure and long flames. Short flames, if properly directed, consume less gas for the same cooking operation.

DON'T turn the gas high after cooking boils. After boiling begins, the same temperature can be maintained with smaller gas consumption.

DON'T keep rooms at over 68 degrees; lower temperature by turning down gas, not by opening doors and windows.

DON'T burn gas in a furnace without automatic thermostat control. Such an automatic device prevents overheating and waste of gas.

DOO'T burn gas in an ordinary coal furnace. It requires much more gas for the same heat than with a specially built furnace.

LETTERS FROM BOURBON COUNTY SOLDIERS AND SAILORS

Kimbrough Duvell, son of Mr. and Mrs. George Duvall, of Paris, writes THE NEWS, from Camp Sevier, near Greenville, South Carolina, under date of Nov. 13. Duvall was transferred from Camp Upton, on Long Island, sometime ago to Camp Sevier, for transfer to overseas duties. His letter follows:

"Camp Sevier,
"Nov. 13, 1918.

"Dear NEWS:

"I guess you will be surprised to hear from me, but I am going overseas real soon. The Major over our battalion told us we would leave for overseas about the first week of next month, whether the war is over or not. We are preparing for a regimental inspection to-morrow. I guess they will look us over for the last time.

"I was promoted to the rank of Corporal a few days ago, and I like my new job fine, no more K. P. work for 'yours truly'.

"The 'flu' has about blown over down here, but we have a few cases of measles. John McNamara is under quarantine. A fellow took the measles in his tent last week. I think he is lucky, for he does not drill or stand inspection.

"Haskins, Tracy, Burns and all the rest are feeling fine. They are thinking of getting a discharge real soon, but I think we will have to soldier for a couple of years yet. 'Sid' Arms said he would eat Christmas dinner in Paris, but he must have meant Paris, France.

"Leslie Cummins was transferred to the 90th. He comes over to see

us every day or two. He will go over with the 50th.

"I would like to be in Paris for a couple of weeks. But 'no pleasure for the wicked.' I hope Ben Leash will not catch all of the 'big ones'.

"I will ring off and get to cleaning that dirty rifle of mine for inspection to-morrow.

"Best regards to all.

Clarence Buchanan, formerly stenographer for the Power Grocery Co., of Paris, who has been in France for some time as a member of the American Expeditionary Force, writes to his parents, Mr. and Mrs. Charles A. Buchanan, of near Paris, as follows, under date of October 18, from 'Somewhere in France':

"Dear Father and Mother—I know you have been wondering why I haven't written sooner, but I have been rather busy since I left the United States, and also it hasn't been very convenient to write until this time.

"Well, mother, I landed safely across the 'pond' and I had a very enjoyable trip. I was seasick two days, but, of course, that doesn't amount to much. After I recovered from the seasickness I enjoyed riding the big waves.

"I have seen many wonderful things since I have been here. I was in England for a few days, but did get to visit any of the large cities there, so don't know much about England.

"France is a wonderful country and as pretty a place as I have ever seen. In my opinion, for beauty, the land in Kentucky cannot be compared with the land in France. It is rather level, and has many large, beautiful pastures and gardens. Lumber is very scarce and one might travel for days and would never find a house built of lumber. They are made of stone and rocks, but are very beautiful. If I were permitted I could tell you many interesting things concerning this country, but as you know, we are not allowed to tell anything which would be of value to the enemy.

"We are located in a nice place, and the food is of the very best. It is nothing fancy, but is good, wholesome, strengthening food, and, of course, we couldn't ask for anything better.

"I have learned to speak a few words of French. I know I can never learn to speak it fluently, but I am going to try and learn to speak it well enough to call for anything I might want. We are close to a small city and I have been there once. I wanted to buy some bread and had a

hard time making the people understand what I wanted, but finally got it.

"I will have to close for this time. I will write at least once a week, even if I don't hear from you all promptly. But write just as soon as you receive this, for I am always glad to hear from home. Give my love to all. Don't worry about me, for we are being treated the very best possible, and I am sure will get back O. K.

"With best love, I am as ever,

"Your son,

Sergt Newsom Keller, of Paris, who recently returned to his army duties at Pigeon Point, near Wilmington, Delaware, writes THE NEWS as follows:

"Pigeon Point, Delaware,
"Nov. 17, 1918.

"Dear NEWS:—Don't know for sure, but think that within the next thirty days I will be back in civil life and civilian attire. Haven't as yet decided what I will do, but think I have had enough of the so-called simple life, so I think I will hit the high places for New York City. If you have any extra space in THE NEWS I am enclosing a home-made poem which treats of the woes of a man who spent years in the army, but could not get the big men to send him to France.

"As it is nearing time for taps I will close, and let you hear from me again pretty soon. Your's,

"In-Turned."

There are thousands of men in the

A. E. F.
Who did not volunteer,
And plenty more will be going o'er
Who'd just as soon be here.

The most unfortunate man to-day
Is the fellow who came to the front
And offered his all at his country's
call.

And was ready to hear the blunt—
But was cast aside and assigned
elsewhere.

To Replacement or Depot Brigade,
And there to remain till he grew
insane.

As he waited in vain for aid.
For his longed-for chance to go to
France.

Does not materialize:
He storms and he frets but he
never gets.

His chance like the other guys.
He writes in despair to his friends
over there.

That he'd give ten years of his life
if he could get in it for only a
minute.

To try out his luck in the strife.
Now last year they told him that they
they had to hold him.

On this side with other good men
To train new recruits in making
salutes.

Yet again and again and again.
Now the end of the fight is almost
in sight.

He's as far from the front as at
first.

Is it any great wonder he thinks it
a blunder.

And his soreness cannot be dis-
persed?

For now it would seem that his fond-
est dream

To fight for the U. S. A.
Will never arrive, although he may
strive.

And hope against hope for the day.
The unlucky ones in this great world
war.

Are not the men who are killed,
Nor the wounded ones, be they
Allies or Huns.

No matter what blood they have
spilled—

The most unfortunate man of to-day
Is the man who jumped at the
chance.

To fight like Hell from the tap of
the bell.

But who'll never see service in
France.

FRENCH WAR-WIDOW THANKS BOURBON BENEFACTOR.

Although the war is over, the armistice signed, hostilities at an end, and a peace conference will shortly convene to consider all the details of a permanent peace, yet the effects of the horrible events that have been made the last four years, the blackest in the history of the world remain.

Ruined homes, widowed hearts and fatherless children in France and Belgium will manifest the unspeakable cruelties of the war for years to come.

Especially does the helpless condition of little children appeal to the human heart, and the good people who have already "adopted" one or more of "these little ones" are experiencing their reward in the feeling that they have contributed to a philanthropy which can be measured only by the future usefulness of their proteges, and by the gratitude such as is explained in the following pathetic little letter:

Confians, 14 Oct., 1918.

Mr. W. B. Allen,

Paris, Ky.

Mr. and Dear Benefactor:—
I am too little to compose a long letter, but I can at least tell you that I thank you with all my heart for sending me the beautiful draft which my mamma is going to receive at the postoffice.

I love you very much, and I shall never forget the kindness which you have done for me. I ask the good God that He grant you health and that he make you happy.

I pray you, my dear Benefactor, to believe in all my gratitude and I send you my respectful salutation.

I am sending you my picture which you will find in the letter.

I join my most sincere thanks with those of my little girl. My husband died on the field of honor in October, 1914, leaving a widow with five children, one boy at the front, another 14 years old, who is beginning to work, and three little girls who go to school, of whom the eldest is ill, and the two others, 8 and 7 years.

Before closing, I pray you to accept my ever living gratitude and my respectful sentiments.

HORSEBACK WRESTLING NEW
SPORT FOR SOLDIERS.

A new sport which has become very popular among the soldiers in a Canadian training camp is horseback wrestling, says the December Popular Mechanics Magazine in an illustrated article. Two teams of 10 men are mounted on horseback at opposite sides of the field. At a given signal they charge toward each other, the object of each team being to dismount all of its opponents.

HOW TO CAN SPARE RIBS AND BACKBONES.

Miss Lucy B. Simms, Bourbon County Chairman Woman's Department of Food Administration, has received the following instructions from State headquarters:

University of Kentucky, College of Agriculture, Extension Division, Lexington, Ky., Nov. 5, 1918.
CANNING OF SPARE-RIBS AND BACK-BONES.

Many requests have come for the best method of saving spare-ribs and back-bones, which country people have in large quantities at hog-killing time. In Kentucky, weather is so variable that a few days of higher temperature may occur at any time during the winter, and even though spare-ribs and back-bones have been well salted they acquire a bad flavor unless used promptly. The temperate winter climate of Kentucky has heretofore occasioned great extravagance and waste, also much sickness from excessive use of fresh meat.

For several weeks after hog-killing country people eat fresh pork three times a day in order to use the supply before it spoils. The Food Administration now requires a conservation of meat and the following recipe is offered as a means of extending the family supply of spare-ribs and back-bones throughout the year:

Use as large a roasting pan as will fit the oven and fill it with spare-ribs and backbones. Salt and pepper to taste and add a little water, basting frequently and evenly until they are thoroughly done and nicely browned as if for immediate table use. Remove from oven and cut meat from the bones into small pieces and place it in quart glass jars that have been previously sterilized. Fill all spaces and to the brim of the jar with some of the liquid of the roasting pan. Place in rubber ring, lid and clamp in position, but do not close spring of clamp or screw Mason lid tight. Place jars in oven, either on the rack placed one or two inches from bottom of oven or else in a dripping pan with a cloth laid on the bottom and add two inches of water. Heat the oven to about 300 degrees F. or about as it should be for baking bread. Leave jars in the oven at this temperature for 45 minutes. Remove from oven and tighten lids completely. Invert jars to test seals and protect them from a cold draught. Let cool gradually. It is necessary to use a rubber ring that will stand this heat. The "Good Luck" or "Cold Pack" are recommended.

NOTE.—Meat must be canned within three days after butchering; earlier if temperature is above freezing.

When ready to use, heat the meat in the jar and serve on a platter, surrounding the mold of meat with steamed rice or mashed potatoes.

Sausage may be saved by using the above method after the cakes or links have been fried.

NEW AUTO MAIL TRUCK SERVICE A SUCCESS.

The new auto truck mail service recently inaugurated by the Post-office Department, which made its first trip through Paris last Monday, is proving a decided success, and proving the wisdom of the authorities in furnishing this mode of accommodation for the urban population of counties through which the service passes. The trucks carry only mail and parcel post packages, no passengers.

These trucks are of special convenience in carrying produce to the markets. Any farmer along the route of either line can stop the truck at his gate and mail any parcels that he desires. For instance, a crate of eggs that costs ninety cents to transport by express to Cincinnati, can be sent by means of this truck to Cincinnati for about sixty-one cents. The truck stops at the farmers' gates to pick up the crates, thus saving the farmers a trip to town. The trucks will not, however, deliver parcels anywhere but at regular postoffices. The route embraces two lines, for which the following schedules have been arranged:

SOUTHBOUND:

Leaves Cincinnati 5:30 a. m.
Arrives Cynthia 11:30 a. m.
Leaves Cynthia 1:00 p. m.
Arrives Paris 2:00 p. m.
Arrives Lexington 3:15 p. m.
Arrives Danville 7:30 p. m.

NORTHBOUND:

Leaves Danville 5:30 a. m.
Arrives Lexington 9:45 a. m.
Arrives Paris 11:00 a. m.
Arrives Cynthia 12:00 noon
Arrives Cincinnati 6:30 p. m.

SOUTHBOUND:

Leaves Louisville 5:00 a. m.
Leaves Bardstown 8:20 a. m.
Arrives Danville 12:00 noon

NORTHBOUND:

Leaves Danville 1:00 p. m.
Arrives Bardstown 4:45 p. m.
Arrives Louisville 7:30 p. m.

AUSTRALIAN WOOL CLIP.

For the first time the whole of the Australian wool clip has been valued on a scientific basis. Some 664,000,000 pounds have been handled, and the result, based on the all-around flat rate of 15 1/4d per pound, is stated to be 14.68d. Last season the appraisements worked out at 14.16d, which shows an increase for this season of 9.5 per cent. The new clip has already commenced to move into Sydney, 8,355 bales having been received from July 1 to July 18, inclusive. Freight is still a problem and not much relief is in prospect, but some relief will be afforded by the Government stores.

GET SOLDIERS ADDRESS LABELS FROM RED CROSS.

In case relatives of men overseas with the American Expeditionary forces have not yet received the labels containing the names and correct addresses of the soldiers, which are to be forwarded by them to their families, they may obtain such labels from the Red Cross by presenting a certificate that they are the nearest relatives of the men and that they have not received labels. This arrangement is effective after November 21, as the date limit of November 21 for mailing Christmas parcels overseas has been extended to November 30, inclusive, as the location of certain divisions of our troops has prevented the prompt distribution and dispatch of Christmas labels from members to their relatives at home.

The Third Assistant Postmaster General has issued the following notice about the matter:

"The nearest relative of any member of the American Expeditionary forces in Europe not receiving a Christmas parcel label by November 21, 1918, or in case such label is lost, may obtain a Christmas parcel label for sending such a parcel by applying to the local Red Cross receiving station. Parcels to which such labels are affixed will be accepted by postmasters up to and including November 30, 1918."

RETURN OF THE SOLDIERS MAY BEGIN SOON.

Arrangements for bringing home the troops in France are being worked out rapidly from a shipping point of view, the shipping board announced in issuing a call for five thousand volunteers to man the ships that will be used for that purpose.

Chairman Hurley, before his departure for Europe, left definite orders to rush all arrangements for this work. The War Department transport service, it was said, is co-operating fully with the shipping board. Plans have been formulated whereby the shipping board will furnish crews for the War Department transports. Each month, it was said, 400 men will be required as firemen and other hundreds for ratings as sailors, stewards, cooks and coal passers.

Men between 18 and 35 will be accepted under the call issued without regard for their draft rating or previous experience and will be put aboard training ships at Boston, San Francisco, Seattle, New Orleans and Cleveland for six weeks' training. Opportunity will be afforded those who enlist to remain permanently in the merchant marine after peace has been signed and the entire army returned to the States.

CLAIM HANDKERCHIEFS HELP SPREAD DISEASES.

Coughs and sneezes are not the only spreaders of colds in epidemic form—the handkerchief also is a party to the crime.

Cotton handanna of labor or the hemstitched linen of milady are equally guilty. Any handkerchief saturated with the secretion from a running nose is a menace when used over and over again, and especially dangerous when it becomes dry and a source of contagious dust.

Many people with bad colds blow the secretion into a handkerchief which is then wiped in and out of a pocket, soiling it and the hands with the same secretion.

Why are these germ colds on the increase now? Simply because in mild weather when windows and doors are open most of the time to fresh air the fresh breezes ventilate out houses and carry away germs.

Good ventilation means fewer germs—germs diluted.

The cold season, however, will bring over-heated, indoor, closed, stuffed spaces with over-crowding.

When people congregate in closed air spaces they each contribute contamination of dust and dirt from feet and clothing and many of them contribute disease germs of which they are carriers, though seemingly well.

In other words, the same thing that makes measles, chickenpox, mumps and similar contagious diseases spread among children housed in fall and winter schools makes pneumonia colds, influenza colds, pus germ colds and other infectious colds spread among people of all ages during the season of ill ventilation.

LESS MEAT, BETTER HEALTH

Physicians agree in the verdict that the average American community is in better health than it was a year ago. This is ascribed partly to the diminution of the quantity of meat consumed in response to the appeals of the Food Administration and to the corresponding increase in the vegetable diet.

A red flag's effect on an autocrat seems to be diametrically opposite to its effect on a bull.

MAYOR JANUARY INDORSES SOLDIERS MEMORIAL PROJECT

PARIS, KY., Nov. 21, 1918.

To Bourbon Citizens: I am aware of the move quietly launched a few weeks ago by the committee in charge of the Soldiers Tobacco Fund to secure means with which to erect a suitable monument in Paris, to the memory of Bourbon's patriots, who gave their lives in the great war just closed, and I desire to add my earnest and unqualified endorsement of same.

The Soldiers Tobacco Fund Committee inaugurated the Soldiers Tobacco Fund when war was declared. The purpose of this fund, as frequently stated by members of the committee, was to liberally supply all Bourbon soldiers with their favorite brands of cigars, cigarettes, chewing tobaccos, etc., not only while en-training for an Army Camp, but also whenever the Bourbon soldier requested such articles regardless as to where he was located.

This committee, through the liberality of Bourbon citizens, has fully discharged their original purpose and every Bourbon County select as well as volunteers in the service, have been the recipients of these comforting gifts from the Tobacco Fund Committee, throughout the duration of the war.

The committee has not confined its efforts alone to tobaccos however, but in many cases has supplied candies, toilet articles, wearing apparel, etc., to say nothing of the meals and lodging furnished on different occasions. Then too, the Soldiers Tobacco Fund Committee has thoughtfully, and most appropriately, spent quite a sum of money for flowers for the graves of all our boys who have died in army training camps recently. The same fund has also provided badges and other necessary incidental supplies for Bourbon selects.

The Soldiers Tobacco Fund Committee, composed from the beginning of Messrs. Bruce Miller, Pearce Paton and Lewis T. Lileston, while having almost served the purpose for which it was originated, I am told, is entirely free from debt, and for several weeks has been quietly continuing its efforts for subscriptions for the purpose of erecting a durable and suitable monument in Paris to the memory of Bourbon's patriots whose lives were given in defense of their country.

The committee has gone about its work quietly, due to their desire not to interfere with the present War Work Campaign, and they expect soon to unfold to the people of Bourbon County their future aims and purposes.

This new monument by the Soldiers Tobacco Fund Committee is a most commendable and practical movement. One that should and no doubt will, meet with the great success it justly deserves.

In behalf of this worthy movement, I desire to ask that every citizen of Paris and Bourbon County give to this highly worthy movement, that an appropriate memorial may be erected to the memory of our war heroes. I am confident that the committee will at the proper time, unfold its plans fully to the public and I can unhesitatingly commend the movement as worthy of everyone's support.

Respectfully,
E. B. JANUARY, Mayor,
Paris, Ky.

PARIS TOBACCO MARKET WILL OPEN DECEMBER 11.

The Paris tobacco market, one of the best in the State in the past, will open on Wednesday, Dec. 11, one of the houses making the announcement that tobacco would be received on its floors on Monday, Dec. 9.

Many farmers and growers have finished stripping their tobacco, and are anxious for the opening of the local market, so they may obtain money to meet their war obligations and other necessary expenses. Two buyers for the large tobacco companies are already here to await the opening day.

By the time the local market opens all the tobacco in the county will have been stripped and placed in condition for handling. The weather for the most part has been very favorable for this kind of work and some of the crops are even now ready for the warehouses. There have been no speculators noted in the county. The growers and handlers of the weed are anticipating good prices.

B-4 FIRE Insure with W.O. HINTON & SON, Agts

CHILD PROBABLY FATALLY BURNED AT GEORGETOWN.

Martha Pingle, six-year-old daughter of Mr. and Mrs. James Pingle, of Georgetown, was probably fatally burned Tuesday afternoon, and James Parker, a blacksmith, was severely burned about the hands in trying to save the child's life.

Mrs. Pingle left her home on Court street to market, leaving the little girl at home alone. As the child passed the open grate, it is thought she tried to reach the mantle, when her dress caught on fire. She ran into the street, her clothes in flames. Parker, who was passing, rushed to her assistance and smothered the flames with his coat.

GOV. STANLEY APPOINTS STATE RACING COMMISSION.

Governor Stanley, Wednesday, appointed Johnson N. Camden, of Versailles; Judge Allie W. Young, of Morehead, W. J. Abram, of Louisville, and Thomas A. Combs and J. C. Keene, of Lexington, members of the State Racing Commission. Abram, Keene and Combs are the new members succeeding Thomas Hart Talbott, of Paris; General W. B. Haldeman and Charles F. Grainer, of Louisville. Camden, Young and Keene are members of the commission who are breeders of thoroughbreds.

RURAL CARRIER EXAMINATION.

The United States Civil Service Commission has announced an examination for the County of Bourbon, Ky., to be held at Paris on December 14, to fill the position of rural carrier at Paris and vacancies that may later occur on rural routes from other postoffices in the above-mentioned county. The examination will be open only to male citizens who are actually domiciled in the territory of a postoffice in the county and who meet the other requirements set forth in Form No. 1977. This form and application blanks may be obtained from the offices mentioned above or from the United States Civil Service Commission at Washington, D. C. Applications should be forwarded to the Commission at Washington at the earliest practicable date. Applications may be had by calling on W. C. Clark or W. M. Cooper, examiners, at Paris postoffice.

During the continuance of the present war the Commission will, in accordance with the request of the Postoffice Department, admit women to rural carrier examinations upon the same conditions as men.

The vacancy for which this examination is caused by the enlistment of the carrier formerly employed on the route. Upon his honorable discharge from the military service of the Government he will be entitled to reinstatement to his former position as carrier on this route in accordance with the statute approved July 28, 1916, which is as follows: "Any postal employee who has entered the military service of the United States or who shall hereafter enter it shall, upon being honorably discharged therefrom, be permitted to resume his position in the postal department which he left to enter such service."

However, any person appointed to this position may, in the discretion of the Postoffice Department, be assigned to other parts of the postal service; or transferred to other branches of the classified service for which he is eligible.

CAMP KNOX TO BE MADE PERMANENT CAMP.

Camp Knox, at Stithon, Ky., now in process of construction, will be completed and maintained by the government as a permanent artillery training cantonment in connection with artillery firing center at West Point, according to announcement made by W. P. Dale, Director of the United States Employment Service for Kentucky, after the receipt of advice from Major W. H. Radcliff, construction quartermaster in charge of the work. Mr. Dale said that, according to his advice, instructions had been received for the completion of four of the six brigade units of the cantonment, providing accommodations for 40,000 men instead of the 60,000 soldiers it had been originally planned to send here.

THINGS TO WORRY ABOUT

News comes from Holland that the former Kaiser has decided to live in Holland and buy large estates there. While our troops are over there it would not be a bad idea under such circumstances to give Holland a whaling for permitting such a brute to have lodgment there. However, there are extradition laws that will get the beast, if it is decided that he shall be tried for the most colossal crimes in history.

GRAIN FIELDS SAVED FROM FIRES.

During 1917 crops valued at \$130,000 were saved from destruction in California through the fire-fighting campaigns initiated through the farm bureaus by county agents throughout the State. A Ford auto truck equipped with an extinguisher and other fire-fighting apparatus were purchased by one county by levying an assessment of 2 cents per acre on its grain land. Fifty thousand dollars' worth of grain were saved in Stanislaus county alone through its newly organized fire department. San Diego led all the counties in fire protection, with an appropriation of \$9,500 for the employment of fire

bosses, the securing of equipment and the paying for labor consumed in fighting fires. The farmers of California have decided to eliminate at least the losses to their crops due to fires. All the principal grain-producing countries have now secured appropriations and appointed fire bosses and trailers as a result of the combined efforts of their county agents and representatives of the forest service.

FOR THE RED CROSS

An aged grey horse belonging to Mr. Valney Ferguson was sold at public auction on the court house square for \$25. The proceeds were donated to the Bourbon County Chapter Red Cross. Mr. Ferguson paid \$145 for the animal when he first acquired it several years ago.

APPOINTED ADMINISTRATOR

In the County Court Judge George Batterson appointed Mr. John W. Jones, of North Middletown, as administrator of the estate of Mrs. Annie Rhodes Gillispie, who died near Little Rock, in this county, recently. Mr. Jones qualified for the trust by furnishing bond.

BUSINESS CHANGES.

The restaurant firm of Ahern & Burton, doing business at the corner of Tenth and Pleasant streets, has dissolved. Mr. Frank Burton retiring. The business is being conducted by Mr. Thos. Ahern. Mr. Burton will probably engage in some other business, unless he finds a suitable location in Paris.

TO REHEARSE FOR THANKSGIVING SERVICES.

All members of the choirs of the Paris churches and of the Community Chorus are requested to meet at the Y. M. C. A. building to-morrow (Saturday) night at 7:30 o'clock, to rehearse music for the Thanksgiving services.

A. L. BOATRIGHT, Director.

A WORD OF THANKS.

Miss Boehme, Superintendent of the Massie Memorial Hospital, wishes to thank publicly the volunteer nurses and all the ladies who otherwise assisted during the recent epidemic, also those who were so thoughtful in remembering the sick with flowers and appetizing trays. "That, which you have done have, been, indeed, deeds of kindness."

GET YOUR LABELS.

The Home Service division of the Red Cross warns Paris and Bourbon county people that Saturday, November 30, will be the last day to send Christmas packages to soldiers overseas. Those holding labels are requested to call at the Red Cross rooms in the Bourbon-Agricultural Bank building at Main and Broadway, from 2:00 to 4:00 p. m., and get their boxes.

CHANGE OF DATE FOR TOBACCO SEASON.

Owing to a necessity in change of date, the opening sale of tobacco at the Independent Tobacco Warehouse, in Paris, has been changed from Wednesday, Dec. 4, to Wednesday, Dec. 11. The house will be open for the reception of tobacco on the sales floors on Monday, Dec. 9, instead of Monday, Dec. 2, as previously advertised.

REPORT OF WEATHERS SALE

On account of the bad weather conditions there was a small crowd in attendance at the public sale Tuesday on the farm of the Weathers Bros., on the Bethlehem pike, near Paris. The bidding was active. George D. Speakes, of Harris & Speakes, who conducted the sale, furnishes the following report:

Sheep sold from \$11 to \$14 per head; cows, \$45 to \$100 per head; bull calf, \$75; yearling cattle, 11 cents per pound; heifers, 10½ to 11 cents per pound; shoats \$9 to \$15 a head; five sows with young pigs, \$40 to \$69 per head; yearling colts, \$100; pair of Percheron mares, \$500; farm implements brought good prices.

WHY DO YOU PAY RENT?

Probably it appears to you to be the easiest way to get along—it is certainly easy for the landlord. You are making him a present of the house in which you live every few years, for in reality you are buying and paying for a home, but never receive the deed for it.

By taking advantage of the Bourbon Building & Loan Association's system of loaning money you will only have to pay for your home once, and the house will be yours while you do it, as you will be paying the rent to yourself.

We offer you the opportunity in our new series which opens Saturday, December 7.

SOCIAL AND PERSONAL.

Comings and Goings of Our People Here, There and Elsewhere.

—Miss Martha Talbott is at home from Margaret College, at Versailles.

—Mrs. N. B. Hedges, of Paris, is a guest of Mrs. J. M. Powell, in Winchester.

—Miss Nell Bush has returned to her home in Winchester, after a visit to relatives in Paris.

—Miss Cornelia Stone has returned from a visit to her sister, Miss Hadley Stone, in Versailles.

—Mr. Isaac Wilcott and family have returned to their home near Hutchison, after a six months' stay in New Mexico.

—Mrs. Sidney Clay, Misses Charline Ball and Martha Ferguson and Mrs. William Shire, of Paris, were recent visitors in Lexington.

—Mrs. Gus Margolen, of Georgetown, and daughter, Mrs. Melvin Fuerst, of New York City, are guests of Mrs. Louis Saloshin and family, on Pleasant street.

—Mr. James Higgins, a popular employee of the Bourbon Steam Laundry, who has been very ill with rheumatism at his home on Seventh street, is improving. "Jimmie" wishes his friends to know that he is not an influenza sufferer.

—Society events in this city have been absolutely "nil" during the last month, owing to the Health Board regulations. One young society man said that if this thing kept up much longer Paris society people would have to learn all over again "how to behave in company."

—Mrs. Elmer Nichols and family, who have been seriously ill of the Spanish influenza at Irvine, are on the road to recovery. Mrs. James Stephens, of Paris, who has been nursing them, returned here Wednesday, and was sent to the home of Mr. C. M. Penn, on the Clintonville pike, where she is acting in a similar capacity.

—Miss Nancy Barbee Wilson, daughter of Mr. and Mrs. J. S. Wilson, of Paris, who has been ill of influenza at Science Hill Academy, in Shelbyville, was reported yesterday as being somewhat better. The school has been entirely free from disease until Monday, when four cases of influenza developed. Students have returned to their homes, while the school is closed. The cases reported are of a mild form.

RED CROSS TEA ROOM

Owing to the generous donation by Mr. Frank Collier of a fat pig the young women of the Red Cross Tea Room, with Mrs. Fay Ardery as Chairman, have decided to have a six-o'clock roast pig and spaghetti dinner Sunday evening. The spaghetti will be cooked by Mr. John's famous Spanish recipe and served with many other delicious dishes. The young women appreciate greatly the generous donations and the continued patronage of the public, and take this means of extending their thanks to all. The Tea Room will will discontinue about the first of December, and the girls are extremely anxious to make a good record in that time. They ask the patronage of the public to continue, and hang out the "Welcome" sign.

The menu for to-day (Friday) is as follows: Baked fish with egg sauce; potato rosettes; fresh beets; corn bread sticks; turkey a la King on toast; head lettuce and Russian dressing; cucumber salad; apple dumplings; tea; coffee.

For to-morrow (Saturday) the menu will be the following: Croquettes; peas; salsify; beaten biscuit; genuine turtle soup; tomato aspic; cream meringue; veal loaf; cream sauce; pineapple aspic; coffee; tea.

BACK HOME AGAIN.

Mr. John Doty, who for many years conducted a photograph studio in the rooms over THE BOURBON NEWS office, and who moved his establishment to rooms in the building on Main street, adjoining the Lono fruit stand, has returned to the old stand. Mr. Doty was busy yesterday moving in and will be ready for business in a few days.

Governor Black has just recovered from an attack of Spanish influenza, having contracted the disease on a speaking tour for the Fourth Liberty Loan.

THE THANKSGIVING TURKEY MARKETS ARE OVER.

The market for buying and shipping turkeys for Thanksgiving is over. The pens of Chas. S. Brent & Bro., at Paris, Millersburg, Flemingsburg and Carlisle have closed until the Christmas market opens. The turkeys were reported as being in fine condition for the early markets. Good prices were paid both to the farmers' wives and turkey pickers, putting a large amount of money in circulation.

INDEPENDENT TOBACCO WAREHOUSE TO OPEN SEASON DECEMBER 11.

The tobacco season of 1918-19 will be inaugurated in Paris on Wednesday, December 11, when the first sale will be held at the warehouse of the Independent Tobacco Warehouse Company, in South Paris. The warehouses will be open on Monday, December 9, for the reception of tobacco on the sales floors. The sale on Wednesday will begin promptly at nine o'clock, a. m., and continue until the lots are disposed of.

The Paris Tobacco Warehouse Company, of which Mr. Charles C. Clarke is President, and Mr. Dan W. Peed, Manager, disposed of a total of 3,385,545 pounds of tobacco during the season of 1917-1918, which brought a total of \$1,002,237. This made the highest average of any tobacco warehouse in the State, a season average of \$29.61. This house also scored the highest floor average for any one day, being \$44.95, and also a crop lot for the highest price of any house on any market in the State, \$56.60.

The Independent is prepared to take care of any offerings brought to the house, having one of the best-lighted and most thoroughly equipped floors of any house in the State. Prompt attention will be given all customers, and settlements will be made promptly, leaving everybody contented and satisfied. Take your tobacco to this house, Mr. Tobacco Man, if you desire to realize the best prices. Under able business management and with the assurance of right treatment the Independent ought to be the tobacco man's Mecca this winter. (22-2t)

FOUR POUNDS OF SUGAR PER PERSON DEC. 1.

"Some sweet day" will come at last.

Four pounds of sugar per person a month is the most recent ruling of the United States Food Administration, effective Dec. 1, according to the announcement made yesterday by Lawrence D. Mitchell, Bourbon County Food Administrator.

Four pounds of sugar is considered the amount used by a person ordinarily. It is unofficially announced that there is hope that in a few months the sugar situation in America may become once again normal as war restrictions are removed.

Since Christmas time is candy time, as no other season of the year, candy manufacturers also have been allowed 50 per cent. of their regular allotment for the Christmas holiday trade by the Federal Food Administration.

THAT CHANGE IN WOMAN'S LIFE

Mrs. Godden Tells How It
May be Passed in Safety
and Comfort.

Fremont, O.—"I was passing through the critical period of life, being forty-six years of age and had all the symptoms incident to that change—heat flashes, nervousness, and was in a general run down condition, so it was hard for me to do my work. Lydia E. Pinkham's Vegetable Compound was recommended to me as the best remedy for my troubles, which it surely proved to be. I feel better and stronger in every way since taking it, and the annoying symptoms have disappeared."—Mrs. M. Godden, 925 Napoleon St., Fremont, Ohio.

Such annoying symptoms as heat flashes, nervousness, backache, headache, irritability and "the blues," may be speedily overcome and the system restored to normal conditions by this famous root and herb remedy Lydia E. Pinkham's Vegetable Compound.

If any complications present themselves write the Pinkham Medicine Co., Lynn, Mass., for suggestions how to overcome them. The result of forty years experience is at your service and your letter held in strict confidence.

U. S. FOOD ADMINISTRATION ON THANKSGIVING DINNER

To Home Conservation Workers: Thanksgiving Day, 1918, will be the greatest in all history. This year the month of November, set aside as of old for rejoicing and thanksgiving, is memorable for events of victory and peace. Its celebration should be made appropriate by patriotic menus indicative of thrift and Americanism. A conservation program waits on the American Thanksgiving dinner. Let no one think that the end of the war will free us from the need of conservation. The call of more hungry persons than ever comes from overseas.

We can do a large service in the month of November if we will urge our housewives to prepare a simple fare, using local products for which our transportation facilities have not been taxed.

Turkey? Yes, and chickens, too, instead of beef and pork needed for export; plenty of gravy to save butter for shipment; oysters in their native states; wild rabbit for those who are fortunate enough to have them; pies with one crust and filled deep with fruit and vegetables; cranberries sweetened with honey or sirup; turnips, squash or onions in place of vegetables out of season; sugarless confections, native nuts for dessert.

In short, use local perishable products to save transportation.

The following menu in which much may be prepared the day before the dinner is for a family desiring simplicity. Sirups may be used for sweetening the pudding. The salad course may be omitted if desired, a gain in labor and in fat. Use the celery leaves for the platter garnish. The last course may be the centerpiece.

Choice of—Roast turkey, chicken, game or rabbit; rice and celery dressing; gravy; potatoes (roasted with meat).

Choice of—Creamed onions; squash baked in the shell; scalloped tomatoes; scalloped corn; lettuce with French dressing (may be omitted); steamed pudding; popcorn confection; local nuts; red apples.

Very sincerely yours,
U. S. FOOD ADMINISTRATION,
Home Conservation Division, Martha VanRensselaer.

GREATLY BENEFITED BY CHAMBERLAIN'S TABLETS.

"I am thankful for the good I have received by using Chamberlain's Tablets. About two years ago when I began taking them I was suffering a great deal from distress after eating, and from headache and a tired, languid feeling due to indigestion and a torpid liver. Chamberlain's Tablets corrected these disorders in a short time, and since taking two bottles of them my health has been good." writes Mrs. M. P. Harwood, Auburn, N. Y.

TO EDUCATE PEOPLE TO HOLD LIBERTY BONDS.

Despite the operation of the Treasury Sinking Fund for buying up a limited quantity of Liberty Bonds thrown on the market Treasury officials said nothing can prevent the price from continuing below par after the war if many holders sell their bonds. Consequently a campaign of education seeking to have owners hold bonds will be started after the next war loan.

The Treasury has practically given up hope of developing a scheme for artificially stabilizing the price.

GERMANS SAVED FROM DISASTER BY SURRENDER.

Describing the situation at the front the military correspondent of the British Wireless Service says: "Marshal Foch had prepared a further great attack east of the Meuse, which would have undoubtedly have dealt the enemy a decisive blow. When the armistice was concluded, therefore, the Germans were faced with imminent disaster, and the only course open to them was to surrender at discretion."

"The German army appears to be in a state of extreme confusion, but the five days' respite which has been granted will enable the Germans to reorganize their lines of communication and carry out the withdrawal of their troops."

"It is evident that the allies must remain prepared for possible hostile action on the part of certain elements of the enemy's forces. Revolutionary councils have been set up, which may refuse to acquiesce in the terms of the armistice, and the mere fact that the armistice can be terminated by either side at 48 hours' notice necessitates the allies being fully prepared for all eventualities."

"Whatever happens no organized or effective resistance can, under any circumstances, be offered by the German army, but if the troops refuse to acknowledge the authority of their present commanders and the army should disintegrate the allied armies may still have much work to do."

TO CUT SHORT A COLD TAKE A CALOTAB

The New Calomel Tablet That Is Entirely Purified of Nauseating and Dangerous Qualities.

Of all the medicines in the world the doctors prize calomel most highly to break up a cold overnight or to cut short an attack of influenza or grippe, sore throat or a deep-seated cough and possibly to prevent pneumonia. Now that all of its unpleasant and dangerous qualities have been removed, the new kind of calomel called "Calotab" is the doctor's ideal treatment for colds, etc.

One Calotab on the tongue at bed time with a swallow of water—that's all. No salts, no nausea nor the slightest interference with your eating, your work or pleasures. Next morning your cold has vanished and your whole system is purified and refreshed. Calotabs is sold only in original sealed packages; price thirty-five cents. Your druggist recommends and guarantees Calotabs by refunding the price if you are not delighted. (adv)

AMERICAN AMBULANCE SAVES FRENCH BALLOON.

During a battle on the French front last August an American ambulance was the indirect means of saving a French observation balloon, says the December Popular Mechanics Magazine. The balloon was being fired on by a Hun airman when the Red Cross ambulance passed below. Evidently the Red Cross insignia is like the proverbial red rag to the bull, for the airman at once left the balloon in safety and swooped after the ambulance, which escaped unharmed, however.

We don't know anything about its ritual, but we should think the Brotherhood of Elks would find some significance in the fact that the last shell for humanity was fired at 11 o'clock.

A Trial Is Convincing.
"There's a Reason"

ANOTHER LIBERTY LOAN COM- ING.

Secretary of the Treasury McAdoo has announced that, no matter what the result of the pending overtures for peace may be, there will be another Liberty Loan. To use his expression, "We are going to have to finance peace for a while just as we have had to finance war."

There are over 2,000,000 United States soldiers abroad. If we transport these men back to the United States at the rate of 300,000 a month, it will be over half a year before they are all returned. Our army, therefore, must be maintained, victualled, and clothed for many months after peace is an actuality.

The American people, therefore, having supported the Liberty Loan with a patriotism that future historians will love to extol, will have an opportunity to show the same patriotism in financing the just and conclusive victorious peace whenever it comes.

Not for a moment, however, is the Treasury acting on any assumption that peace is to come soon. Until peace is actually assured the attitude of the Treasury and the attitude of the whole United States Government is for the most vigorous prosecution of the war, and the motto of force against Germany without stint or limit will be acted up to until peace is an absolute accomplished fact.

One more Liberty Loan, at least, is certain. The fourth loan was popularly called the "Fighting Loan," the next loan may be a fighting loan, too, or it may be a peace loan. Whatever the conditions, the loan must be prepared for and its success rendered certain and absolute. Begin now to prepare to support it.

ORANGES AFFECT SUGAR CROPS

Attributing the large orange consumption this season to the increased demands made on the crop by the thousands of orange juice stands that have sprung up throughout the United States in the last year, the editor of the Fruit World says: "The world-wide shortage of sugar, estimated at approximately 2,000,000 tons annually since the war began, has caused the restriction of sugar consumption in the manufacture of many of the popular summer drinks. This has increased the consumption of oranges this year and has created a greater market actively in spite of the abnormally high prices caused by the crop shortage following the heat wave one year ago last June. And so the orange-drink stands have alleviated the demand on the sugar supply but also have increased the demands on a shortened orange crop."

KEEP LOOKING YOUNG

It's Easy—If You Know Dr.
Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that exuberance of spirit, that natural buoyancy which should be enjoyed by everyone, by toning up the liver and clearing the system of impurities.

You will know Dr. Edwards' Olive Tablets by their olive color. 10c and 25c per box. All druggists.

ANOTHER CHANGE IN TEXT BOOKS PROBABLE

It is possible that nearly a hundred per cent change in textbooks used in the public and high schools may be made by the State Textbook Commission, which will be appointed in January by Gov. Stanley, although State Supt. V. O. Gilbert does not believe it will be necessary.

While the commission is empowered, under the act of 1918, to change only 50 per cent. of the subjects every five years, the present contractors must submit bids not in excess of present prices, and many of them are complaining that as a result of war conditions since their bids were accepted in 1915, they are losing money. Their contracts run until 1920.

So far, no bonds have been forfeited, but there has been difficulty in getting books. The contractors say they do not want to publish more than are needed, and have limited their output to the requirements estimated from time to time by the distributing agency. When the estimate has been short of the demand it has caused delays.

If the contractors decide that normal conditions will not be restored by 1920, they may decline to bid for extension of their contracts, which would throw all the subjects involved open for action by the commission. Even then, if the number thus thrown open amounts to 50 per cent. or over, it may be the law will limit the commission to these existing contracts in other branches.

An entirely new Textbook Commission will be appointed in January by Gov. Stanley, one member from each of the seven Appellate districts and one from the University of Kentucky and each of the two Normal School faculties, with Gov. Stanley as ex-officio chairman and State Superintendent V. O. Gilbert, ex-officio secretary.

HEAD AND NOSTRILS STUFFED FROM COLD

"Pape's Cold Compound" Ends a
Cold or Grippe in a
Few Hours.

Your cold will break and all gripe misery end after taking a dose of "Pape's Cold Compound" every two hours until three doses are taken.

It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharge or nose running, relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't stay stuffed up! Quit blowing and snuffing! Ease your throbbing head—nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only a few cents at any drug store. It acts without assistance, tastes nice, and causes no inconvenience. Accept no substitute. (adv)

A NARCOTIC.

The habit of reading for amusement becomes with thousands of people exactly the same kind of habit as wine-drinking or opium-smoking. It is like a narcotic, something that helps to pass the time, something that keeps up a perpetual condition of dreaming, something that eventually results in destroying all capacity for thought, giving exercise only to the surface parts of the mind, and leaving the deeper springs of feeling and the higher faculties of perception unemployed. * * * The result of all this reading means nothing but a cloudiness in the mind. That is the direct result. The indirect result is that the mind has been kept from developing itself. All the development necessarily means some pain and such reading as we speak of has been employed unconsciously as a means to avoid that pain, and the consequence is atrophy.

Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. What we want to know is, does the Webb-Kenyon law make it risky for a patriot to import a fruit cake, a mince pie or an English plum pudding from Kentucky? The approach of Christmas makes this matter important.—Houston Post.

LONDON PAPERS SAY EX-KAISER MUST BE SEIZED.

The rumors that William Hohenzollern, the former German Emperor, may possibly return to Germany as supported by the Berlin Lokal Anzeiger's hint that he would not be refused an entry to that country, have created a considerable stir in England. They are featured by several of the London morning newspapers as creating an uncertain situation which is rendered more doubtful by accounts of the activity of German propagandists in several countries.

The fear mainly is that the former Emperor would sooner or later become the center of a reactionary movement in Germany when the present revolution storm has blown over and the advocates of this view consequently fear his return to his former empire.

The Daily Express sees the possibility of a plot to trick the Allies and create a federation far exceeding in strength and resources the former German empire. In the course of a long article this newspaper contends that the former Emperor is back of Chancellor Ebert, former Chancellor Maximilian of Baden and Field Marshal von Hindenburg, and it lays emphasis upon the fact that the Emperor signed no formal abdication and issued no valedictory message.

A number of leading Allied diplomats and statesmen, including Lord Robert Cecil, Under Secretary of State for Foreign Affairs, believe that something is brewing in Germany in the direction of a plot to trap the Allies, the Express declares. The facts appear to indicate, it adds, the existence of a plan to foment social revolutions in Holland and Switzerland and possibly in Sweden through pro-German agitators. It is also desired, according to these indications, the newspaper declares, to foment social revolution in Allied countries, provide for the eventual return of the former Emperor of Germany, the restoration of the old regime and the formation of a greatly extended German federation.

Such a federation with William Hohenzollern at its head, the Express argues, would carry the seed of another world war. It insists that the former Emperor must be seized and his activities prevented.

The Daily Chronicle in an editorial makes a similar demand.

ABOUT CROUP.

If your children are subject to croup, or if you have reason to fear their being attacked by that disease, you should procure a bottle of Chamberlain's Cough Remedy and study the directions for use, so that in case of an attack you will know exactly what course to pursue. This is a favorite and very successful remedy for croup, and it is important that you observe the directions carefully. (adv-nov)

MILLERSBURG

—Dr. W. G. Dailey was in Cincinnati on business from Wednesday until today.

—Mr. J. T. Judy and Mr. C. W. Corrington have returned from a business trip to Cincinnati.

—Messrs. J. Clarke Lee and E. S. Barton left Thursday on a two-weeks' hunting trip in Knox county.

—Mrs. R. L. Buffington, of Columbus, O., arrived Tuesday as the guest of her sister, Mrs. W. M. Miller.

—Mrs. R. C. Borner and daughter, Miss Mary Louise Borner, left Thursday for a few days' visit to relatives at Falmouth.

—Mrs. Victor Shipp, of Oklahoma City, Okla., who is visiting relatives at Paris, was the guest of Mrs. W. M. Miller, Tuesday.

—Mrs. Cox, of Tilton, is recovering after an attack of Spanish influenza at the home of her parents, Mr. and Mrs. Henry Patterson.

—Dr. Comer has suffered a relapse and is again critically ill. Last week he was much better and was thought to be on the way to a speedy recovery.

—Messrs. Lee Clarke, of Louisville, and brother, Thomas Clarke, of Oklahoma, were guests of their parents, Mr. and Mrs. J. S. Clarke, Sunday and Monday.

—Mr. Ira Rankin and family have moved from the home of Mrs. Nancy Wilson to the property of Mr. Philip Maher, on Trigg avenue, recently vacated by Mrs. Earl Insko and son.

MATRIMONIAL.

HAMILTON—BOAZ.

—Having the consent of their parents, Edgar Boaz, eighteen, and Ethel Hamilton, seventeen, both of Paris, secured license from County Clerk Higgins Lewis, in Lexington, Wednesday. They were married later in the day by a Lexington minister.

HAMILTON—EALES.

—Mrs. Nellie Hamilton and Mr. Harvey T. Eales were united in marriage in Frankfort a few days ago. Mr. Eales formerly resided in Bourbon county, and now holds a position in the Greendale Reform School, near Lexington. Mr. Eales is well-known in Paris and the county. His friends here extend congratulations.

BIRTHS.

—To the wife of Mr. Edward Ormes, in this city, twins, a son and daughter, christened Buford and Eula Ormes, weight five pounds each. Mrs. Ormes was formerly Miss Ida Bruce Dykes, of Millersburg.

VENTILATE CARS.

Why has not the rule for ventilation of country cars been enforced rigidly?

Even in this mild weather many cars, both interurban and city, have been running without a window open. Left to their own designs nine-tenths of the patrons of cars never would open a window after the first of October. Their influence against compliance with the order, especially when there is a cool breeze, tends perhaps to make car crews overlook the shutting of windows which were opened at the beginning of the season.

No car should be permitted to operate without the minimum required ventilation. If the company cannot through orders keep its cars ventilated, detectives should be put on the cars, by the Health Service and the rule enforced.

Karl of Austria now knows why the Kaiser would not loan him the dozen divisions he asked for.

DEATHS.

BARTLETT.

—The funeral of Marie Bartlett, daughter of Mr. and Mrs. James Bartlett, of Paris, was held in the Lexington Cemetery, at 2:30 o'clock Sunday, with services held at the grave by Rev. Benj. Bush, of Lexington. The little girl was a bright child and a favorite with all who knew her, and especially with the members of her Sunday school, in Lexington, where the family resided before moving to Paris.

RYE.

—The funeral of Mr. John Rye, aged sixty-four, who died at the home of his daughter, Mrs. Wm. Botts, in Winchester, Sunday, of pneumonia, was held Monday afternoon with services conducted at the grave in the Winchester Cemetery. Mr. Rye was a brother of Mrs. Jas. Rye, of Paris. Mr. and Mrs. Rye attended the funeral and burial.

Mr. Rye is survived by his widow, Mrs. Hannah Meadows Rye, and three children, Mrs. Wm. Botts and Mrs. Jesse Rye, of Winchester, and Mr. Edgar Rye, of Montgomery county.

RITCHIE.

—Mattie K. Ritchie, daughter of John and Amanda Ritchie, died at the home of her father, at Shawhan, Monday afternoon. She was born in Ruddle Mills, July 31, 1890. Her mother died April 29, 1918. She was a member of the Shawhan Presbyterian church with which she united five years ago.

The funeral and burial took place at Ruddle Mills, Tuesday afternoon. Besides her father, she is survived by two brothers, Howard and Roy, and two sisters, Ethel and Bessie, all residing at the family home with their father.

HUNT.

—Mrs. Emma Epperson Hunt died recently at her home in St. Augustine, Fla. The funeral and burial took place in St. Augustine. Mrs. Hunt was before her marriage, Miss Epperson, of near Clintonville, this county, and was a niece of Mrs. J. Walker Muir, of Paris.

Her death followed an illness of one week. The announcement received here by her relatives and friends was quite a shock. She is survived by her husband, R. B. Hunt, an official of the Florida East Coast railroad; her mother, Mrs. Mary B. Epperson, of St. Augustine, and one sister, Mrs. Edward Morris, of New Smyrna, Florida.

TAYLOR.

—The funeral of Mr. Washington D. Taylor, aged seventy-six, who died Wednesday morning at his home on the Greenwich pike, in this county, was held yesterday afternoon with services conducted at the grave in the Paris Cemetery by Rev. J. J. Rice, pastor of the Paris Presbyterian church.

Mr. Taylor had been engaged in farming for several years. He is survived by his widow and seven children, Mrs. Mary Link, of Newport, Mrs. Ollie Osborne, of Winchester, Mrs. Garland Lovell, of Bourbon county, Harvey Taylor, of Winchester, Frank Taylor, of Clark county, and Jesse and Wm. K. Taylor, of Bourbon county.

DUNIGAN.

—Another Bourbon county boy has given his life to his country, though not on the field of battle, yet none the less heroic.

Advises were received in this city Monday from the army post near Salt Lake City, Utah, telling of the death there of Private Clennie Dunigan, of Paris, his death having resulted after a prolonged illness due to Spanish influenza and pleurisy. Private Dunigan was about twenty-seven years old, and before his induction in the army had been employed in the Louisville & Nashville railroad service in this city and at other points on the line.

He is survived by his wife, formerly Miss Mattie Pennington, of Paris, who was with him when the

end came; his parents, Mr. and Mrs. James Dunigan, of Beattyville; one sister, Mrs. Effie Horn, and five brothers, George, Henry, Fred, Dock, and Thomas Dunigan.

OSBORNE.

—News has reached Paris of the death in France of Private Kelly B. Osborne, son of Mr. Peter B. Osborne, of near Anstutz. Death was due to pneumonia.

Besides his mother he is survived by six sisters, Mrs. Harry Perkins, of California; Mrs. Frank Taylor, Misses Aileen Osborne, Jessie Osborne, Margaret Osborne, Mabel Osborne; four brothers, Ben, James P., Filmore and Brown Osborne. His young widow, who was formerly Miss Gertrude Murphy, also survives.

Private Osborne was called to camp on May 20, and sailed for France in July. His last letter home was written on September 9, and at that time he was in active service. He was a member of Company B, Second Ambulance Corps.

PAYNTER.

—The body of Miss Dorothy Paynter, aged twenty-one, who died suddenly in Cincinnati, Tuesday, of heart trouble, was brought to the home of her brother, Mr. Strother Paynter, in Thornton Division, Wednesday afternoon. Miss Paynter was a trained nurse, and while in the discharge of her duties waiting on a patient in one of the Cincinnati hospitals was stricken with an attack of heart trouble, expiring in a few moments. Attendants and physicians rushed to her aid, but nothing could be done.

The funeral was held yesterday morning, with services conducted at the grave in the Paris Cemetery by Mr. A. L. Boatright, of the Paris Christian church.

Just a month ago to the day Miss Paynter's father died in Lexington, and was buried in Paris. She is survived by her mother, two brothers, Clarence Paynter, of Little Rock, this county, Strother Paynter, of Falls, and five sisters, Mrs. Elmer Foote, Mrs. Annie McCall, Mrs. J. B. Foster, all of Lexington, Miss Ada Paynter and Mrs. Luther Collins, of Cincinnati.

GERMAN PROPAGANDISTS BUSY IN AMERICA.

Government agents see evidences that the German propaganda machinery in the United States is being put in working order again to promote sentiment of leniency toward Germany in peace terms. Consequently Department Justice officials have warned that the public should remain watchful against resumption of organized propaganda by interests formerly actively pro-German and for the past year passive.

Concerted movement is apparent, officials say, in utterances of many individuals, a few organizations formerly active for German interests and some newspapers. There is no organized leadership, it is believed, but local interests have taken their cue from official pleas from Germany for leniency in armistice and final peace terms.

The interests of the Government agents combatting enemy propaganda at this time is not to suppress free expression of opinion, it is explained, but to fight any concrete propagandists whose purpose would be to confound the authorized spokesmen of the nation in forthcoming peace negotiations. Officials say during the reconstruction period, there may be considerable danger from enemy propaganda working to make the nation forget Germany's course during the war.

Illustrating the attitude that the war and its dangers are not yet over, it is stated that Department of Justice agencies have ordered the internment of some Germans since the armistice was signed.

Official reports show German representatives in various parts of the world still actively engaged in spreading propaganda to create and enhance feeling of hostility toward the United States and Allied countries. Eckhardt, the notorious German Ambassador at Mexico City, again is reported doing his utmost to make Mexico hostile to the United States and is able to have misleading articles published in the semi-official Mexican papers. Recently he had published throughout Mexico that the German army had not been defeated and that the German navy was still fighting the Allied navies.

UNCLE SAM TURNS MODISTE

Gen. Pershing has requested the War Department to consummate arrangements for the issue of equipment to nurses and female employees to the United States army in France on the same basis that governs the distribution of clothing to soldiers, says Leslie's. Women connected with the American Expeditionary Forces who receive pay less than \$75 a month are to get their clothing free. Those who earn \$75 a month or more will be classed with army officers and permitted to purchase wearing apparel at cost. The sound judgment back of this arrangement is obvious. The women who have volunteered for army work are important factors in the success of the war. They have sacrificed all thought of comfort or personal interests, and are entitled to all the consideration shown to the men in the trenches.

From this time on the Germans will not be permitted to have pockets on their front in France.
